

# Module 11

# Passive House Requirements

**Passive-On is a completed research and dissemination project which was funded within the Intelligent Energy for Europe SAVE programme. The project worked to promote Passive Houses and the *Passivhaus* Standard in warm climates.**

**The project has produced a PowerPoint presentation on Passive House. Its target audience was architects and planners but it will be very useful for this course.**

**The intention is to use this PowerPoint as it stands but exclude slides 87 to 96, 100 to 101 and 102 to 119 inclusive.**

## Download instructions:

1. Log on to <http://www.passive-on.org>
2. Click on “Deliverables” and then “Browse the CD and download contents”
3. Click on “Training Module” and download the file “TrainingModule 27 Sept2007”.
4. This is a zipped PowerPoint presentation.
